UH/REG/COVID-19/2020

Dated the 11.04.2020

COVID-19 - NOTICE
'Mask on'

The State government of Telangana on 10.04.2020 made wearing of face masks mandatory for all people when they step outdoors, in closed spaces and while interacting with others. The advisory of always 'Mask On' comes in the wake of revised guidelines from World Health Organisation (WHO) and Health Ministry which earlier had advised that masks could only be used by healthcare workers. The decision to make masks mandatory was taken as a large number of infected persons might not show any symptoms (asymptomatic) but still carry the novel strain of coronavirus and potentially infect others (*Telangana Today, 10th April, 2020*).

In the light of the above, a strong advisory is hereby issued to all stakeholders' campus community to wear face masks mandatory while stepping outdoors, in closed spaces and while interacting with others as well.
